*Average saving is based on customers that switched a gas and/or electricity contract between 1st June 2017 and 6th December 2017. For 99% of customers we were able to directly compare the deal switched to via a Dixons Carphone service vs. the published price of the customer's existing supplier/tariff (as identified by user). The saving is a projected annual saving from the new deal purchased, based on the usage data shared with us. Your actual savings may vary. Date 07/12/2017
