

Important Product Recall Safety Notice

iconBIT has identified a risk due to a manufacturing defect with some power supply units supplied with the iconBIT Mekotron 6 Hoverboard HB-0060.

iconBIT Mekotron 6 Hoverboard

Power Supply Unit Model HLT-118C-4200800

The issue affects this hoverboard and power supply unit only, which was on sale between September 2018 and January 2019 in Currys stores and on their website www.currys.co.uk. All other iconBIT hoverboards sold by Currys are unaffected.

In some instances, the plastic earth pin on the power supply unit is longer than the maximum allowed under the British Standard for plugs. There is a risk that the use of the power supply unit can result in damage to the mains socket or to the power supply itself which in turn could cause a fire.

If you have purchased an iconBIT Mekotron 6 hoverboard with the above power supply unit then you should **stop using the product immediately** and return it to your local Currys store where a full refund of the purchase price will be given.

Alternatively, please contact the helpline for assistance.

FREEPHONE UK: 0800 169 1755

FREEPHONE IE: 1800 206943
